MANN-FILTER – always the right choice.

The service life and efficiency of agricultural machines largely depend on the right filter selection. High-quality filters are indispensable for the functional reliability of your machines. Don‘t compromise and opt for MANN-FILTER products in 100 % original equipment quality.
All MANN-FILTER products are manufactured according to the latest international production and test standards for the automotive and machine industry. They stand for best component quality, have shown to excel due to consistently high and reliable filtration performance and secure a long service life.

Air filter

High-dust applications and long operating times are not mutually exclusive. The proof lies in our air filters, which ensure long and efficient machine running times through their high dust holding capacity.

Oil filter

Oil filter elements from MANN-FILTER offer the highest filtration performance and protect the engine by perfectly cleaning the oil.

Fuel filter

High-quality MANN-FILTER fuel filters remove damaging dirt particles and water from the fuel. This reduces the possibility of damage through wear and corrosion.

Hydraulic filters

In environments with high operating pressures, our filters protect the hydraulic system of your machines against dirt particles, corrosion and abrasion. The high dirt holding capacity of the medium ensures a long filter service life and even removes the finest harmful particles.

NEW! Interactive PDF catalogs for added convenience!

The MANN-FILTER catalog

A variety of new filter types for the latest passenger cars, trucks, and off-highway models complement the widest range of filters in original equipment quality. The catalogs offer an extensive range of vehicle and machine filter elements for the European spare parts market. The catalog set is divided into four up-to-date yellow and green individual catalogs for different application areas and the "Comparison list" available in PDF format contains extensive conversion lists. For the first time, all catalogs are also available as interactive electronic PDF files for browsing with many quick access functions.

You reap what you sow.

Rely on yellow and green when selecting filters.

Filters for agricultural machinery are subjected to the highest loads in operation – particularly during the harvesting season. The challenges here are the large amounts of dust and organic particles, as well as the enormous mechanical loads. MANN-FILTER products are synonymous with optimal protection for your machine, long running times and 100 % original equipment quality.

Performance that pays

Leading manufacturers of agricultural machinery have always trusted MANN-FILTER. And our many decades of experience in the development and manufacturing of efficient, filtration solutions. You too can rely on high-performance MANN-FILTER products to provide long-term protection for your machine and therefore your investments.
